

SPS-15 & SPS-30 Portable Power Sources

Survival **POWER** Systems

Manufactured in the USA!

FEATURES

- LiFePo4 Battery Technology
- Durability Greater than 2000 Cycles
- Non-Toxic, Environmentally Safe
- Safe Thermal and Chemical Stability
- Better Low and High Temperature Performance
- Compact Durable, Waterproof Case
- Advanced Battery Protection Built-In
- Advance Built-In Charger
- Charge Status LED's
- Master Power On/Off Switch
- 1 Cigarette Lighter Socket
- Optional USB Charger Ports

BENEFITS

- 14 Volt 15/30 Amp/ Hour Power Source
- Will charge with any external power source that can provide 19-28 volts dc >9Amps
- Life Expectancy Greater than 10 years
- Partial State Charge Tolerant
- Up to 2000 Charge Cycles (lead acid (~500))
- No Memory Effect
- LED Charge Status
- Will Charge Cell Phones and Tablets
- Can be Charged with Lid Closed
- Can Provide Power with Lid Closed
- 66% Less Weight than Comparable Lead Acid Battery

Survival **POWER** Systems

Manufactured in the USA!

SPS-15 & SPS-30
Portable Power Sources

SPECIFICATIONS

ELECTRICAL

Battery Chemistry: LiFePo4

15/30 Amp/Hour Power Source

Output Voltage Max 14.4V Dc

Max Discharge Rate 5C (75A / 150A)

Limited to 10Amps electronically

Cell protection built-in

Max Charge rate 12 Amps (Built in charge controller)

Solid State main Power Switch

Cigarette Lighter Ports Max port 10 Amps

PHYSICAL

Dimensions: 10.5" Deep, 9.5" Wide, 6.75" High

Weight: SPS-15: 10 Lbs
SPS-30: 14 Lbs.

Connectors: Input:/Output
4 Position Waterproof
Anderson Power Products

OPTIONS

- USB Charger Port
- AUX Power Out
- A/C Charger
- Car Charger
- Solar Panel
